

# **AOD PEER PROFESSIONAL SUPERVISION**

QuIVAA is now delivering Professional Supervision by Peers for Peers and "other" professionals.

The sector has highlighted a crucial gap in the expansion of the AOD lived and living experience workforce. That gap is regular and meaningful supervision delivered by an Identified Peer Supervisor.

A Co Reflection and Trauma informed supervision process is being offered. QuIVAA's AOD Peer Professional Supervision approach centres around the intersections of emotional responses to work and incorporates how this impacts substance use/ recovery while integrating accessible self care skills and professional development.

QuIVAA Peer Supervision is accessible to Individuals privately, Individuals as part of their Employment benefits or contractually through an organisation for both individuals or group sessions.
